THE CUNNIN LITTLE THING.

When baby wakes of morning,

Then it winks, ye people all!

For another day

Of song and play

Has come at our darling's call!

And till she gets her dinner

She makes the welkin ring.

And she won't keep still till she's had her

fill.

The cunning little thing!

When baby goes a-walking,

Oh, how her paddy fly!

For that's the way the babies say

To other folks "by By."

The treat she dreads to kiss her.

And the birds in rapture sing.

As there she stands and waves her hands—

The cunning little thing!

When baby goes a-rooking

In her bed at close of day,

On her dainty cheek

The dreams and the dimples play.

Then it's deep in the tender kisses

The guardian angels bring

From the far above to my sweetest love—

You cunning little thing!

RUB THE OTHER EYE.

Good Advice of an Engineer Regarding the

Removal of Cinders.

Nine persons out of every ten with a

cinder or any foreign substance in the

eye will instantly begin to rub the eye

with one hand while hunting for the

handkerchief with the other. They may

and sometimes do so, remove the offend-

ing cinder, but more frequently they rub

until the eye becomes inflamed, blind

a handkerchief around the head and go to

bed. This is all wrong. The better way

is not to rub the eye with the cinder in

it at all, but rub the other eye as vigor-

ously as you like, according to a

writer in The Medical Summary, who

relates the following experience:

"A few years since I was riding on

the engine of a fast express. The en-

gineer threw open the front window,

and I caught a cinder that gave me the

most excruciating pain. I began to rub

the eye with both hands. 'Let your eye

alone and rub the other eye' (this from

the engineer). I thought he was chaffing

me and worked the harder. 'I know you

doctors think you know it all, but if

you will let that eye alone and rub the

other one the cinder will be out in two

minutes,' persisted the engineer.

I began to rub the other eye. Soon

I felt the cinder down near the inner

canthus and made ready to take out.

'Let it alone and keep at the wall eye,'

shouted the doctor pro tem. I did so for

a minute longer, and looking in a small

glass he gave me found the offender on

my cheek. Since then I have tried it

many times and have advised many

others and have never known it to fail

in one instance unless it was as sharp

as a piece of steel or something that cut

into the ball and required an operation

to remove it."

A Queer Marriage Ceremony.

A queer marriage ceremony was that

in Queen Elizabeth's reign, before the

deaf and dumb alphabet was invented,

between Thomas Filshy and Ursula

Bridget. Ursula could talk fast enough,

but Thomas was a deaf mute, and as it

was required that promises should be ex-

changed in spoken words nobody knew

how to manage the thing. Finally the

bishop of London helped to devise a

service by signs, and Thomas proceeded

thus:

Having first taken Ursula in his arms,

he took her by the hand and put the

nuptial ring on her finger. He then laid

his right hand significantly on his heart,

and afterward, putting their palms to-

gether, extended both his hands toward

heaven. Having thus sued for divine

blessing, he declared his purpose to live

with Ursula till death should separate

them by closing his eyelids with his

fingers, digging the earth with his feet

as though he wished to make a hole in

the ground, and then moving his arms

and body as though he were tolling a

funeral bell.—Pittsburg Dispatch.

Honey From Lump Sugar.

To make it take a quantity of lump

sugar, remembering that your vessel (a

preserving kettle is best) must be large,

as the sirup boils up at one stage of the

process and is apt to run over and catch

fire. Pour on the sugar a little water,

enough to melt to a sirup when hot.

Boil and skim till clear, when drop in

for two quarts as much powdered alum

as you can pile on a dime. The alum is

to prevent the sugar from granulating.

Be ready to lift the kettle off the fire

quickly, as the alum causes the sirup to

froth up very high. Boil until it be-

comes of the consistency and the color

of strained honey, when add a teaspoon-

ful of Jamaica ginger, stir thoroughly

and set to cool.—St. Louis Post-Dis-

patch.

Married Schoolteachers.

Married women can still be appointed

to positions in the Milwaukee public

schools. At the meeting of the execu-

tive committee of the school board Aug.

3 the movement was defeated which at-

tempted to discourage matrimony on

the part of the teachers of the Milwa-

uke public schools, in that it proposed

the retirement from the force of teach-

ers of all married women who had hus-

bands upon whom they could depend

for support and the nonemployment in

the future of married women as teach-

ers.

Central Asia Tales.

The English tale of "Cinderella" is

found in the Siberian tale of "Papallu-

ga," in the German tale of "Aschenpu-

tel" and in the fable of La Fontaine about

the milkmaid and her pail. The legend of

"Beauty and the Beast" is also found in

the myths of the Hindus, Greek and

Norman. All of these tales had a

A DEFECTIVE MEMORY.

The goldbug editor of the *Changeling* was on deck yesterday. From his recent experience in the jury business he seems to think that a convenient memory is a very nice thing to have. He tells his readers that two years ago the mines were all running, wool and cotton were bringing good prices and people were eating three meals a day. But it has all changed because the Silver party was organized and assisted in putting Cleveland at the head of the nation. If the Wall street gentleman who made the above assertions will just stop one moment to think about the situation when the Silver party was organized he will certainly agree with many who have read his article, that his memory is very defective. The Silver party was organized because all the mines, with very few exceptions, were closed instead of running, and the prices of all products were depreciating as the purchasing power of gold appreciated. The Silver-Republicans, as he and other goldbugs called them, predicted two years ago just such conditions as now exist if the currency was not increased by the coining of silver, or the issuance of more legal tender notes. Every school boy knows that the Silver party is no more responsible for the election of Cleveland than the Republican party, and that the acts of the Republicans in Congress prove that it made no difference whether they or Democrats were in the ascendancy, as both combined in the Senate and House to combine all legislation favorable to silver. If the mono-metallic who competes with the scissors in furnishing brain-power for the *Changeling* will brush aside the thick veil of prejudice which obscures his vision, so that he can see the situation as it is, he will discover that the Silver men left the old parties and acted independently as an emphatic protest against their double-dealing. As well might those who supported a free coinage candidate for the Presidency and backed their principles with their votes, and who to day protest against Wall street methods, accuse the Republicans of putting Cleveland at the head of the Nation, as for Republicans to accuse them of doing it. It is universally known that Cleveland had a clear majority over both Republicans and Silver men in the Presidential election and it is somewhat remarkable that the editor of the *Changeling* has not discovered the fact, and the votes on all financial questions in Congress, show that Sherman, Reed and other leading Republicans differ with Cleveland only on tariff schedules.

WALL STREET METHODS.

The Montana Democratic State Convention adopted a platform which declares for free coinage at the ratio of 16 to 1, endorses the Administration of President Cleveland, which is opposed to free coinage, and says the only hope of free silver lies in the Democratic party.

Here in Nevada the Republicans are going through the western part of the State in the interest of the Wall Street combination, and Mr. Bartine proclaims from every stump that the only hope of free silver lies in the Republican party.

It appears that the "plan of campaign" agreed upon by the Wall Street twins to delude the people of the West is for each to boldly assert that it is in favor of free coinage. Acting upon the assumption that "a lie well stuck to will pass for the truth," the Republicans and Democrats hope to keep those who are sincerely in favor of financial reform divided.

The records show that the old party organizations are opposed to increasing the currency by free coinage or any other method. When necessary, they combine in Congress to prevent even the coining of the seigniorage on the silver now stored in the treasury. Sherman and Reed join hands with Gorman and Hartver, and as Senator Jones says, form a third party to defeat any legislation favorable to silver. That is the Wall Street method in Congress, but among the people each of the twins asserts that the only hope of silver lies in its success.

Will the people of the West, who are suffering from Wall Street financial methods, permit themselves to be again duped by the emissaries of the gold trust? There is not an intelligent person in the country who does not know that the Republican and Democratic organizations are opposed to the free coining of silver. The framers of the publican Platform of Nevada and of the Democratic platform of Montana know it. Mr. Bartine, from his experience with a Republican Congress and Administration, must be conscious of it, yet he goes through the State attempting to make the people believe what the record of his party disproves.

A FAVORED CORPORATION.

Governor Allgold of Illinois has addressed the State Board of Equalization on the assessment of the Pullman Palace Car Company's property. He showed by figures and facts the company's methods of escaping taxation in Illinois and other States. The company, for instance, gave in \$36,000,000 as capital stock when it should be \$61,000,000. The Governor begged the Board to make a proper and just assessment of the Pullman property in justice to the people and the State.

The Pullman Company, in the slang

of the day, seems to have a pull on State Boards of Equalization everywhere. When the State Board of Assessors was in existence in Nevada it did not assess the Pullman cars passing through the State and the Pullman's escaped both perpendicular and horizontal raises in Nevada.

Charged With Robbing the Government.

CAPTAIN HOWGATE ARRESTED.

Charged With Robbing the Government.

New York, September 27.—Captain Henry Howgate, formerly Chief of the Weather Bureau at Washington, was arrested in this city to-day on a charge of forgery and the embezzlement of \$360,000, committed in 1878 and 1879. His arrest is the result of a search which has occupied the attention of the United States Secret Service for over thirteen years. Howgate was arrested in 1880 in Washington, but having obtained permission to go to his room to dress, he escaped through a window and has since baffled all attempts to recapture him. With Howgate there went a notorious woman of Washington, for whom, it was alleged, he robbed the Government.

NEBRASKA DEMOCRATS

The Voters File Their Petition.

OMAHA, September 27.—The managers of the Ramp Democratic Convention, which met in the early hours of this morning and nominated a full ticket in opposition to the ticket named by the Democratic State Convention last night, chartered a special train and went to Lincoln and filed with the Secretary of State the certificates of the nominees of their ticket as the candidates of the Democratic party of Nebraska. Under the Australian ballot law there can only be one Democratic ticket voted for and the regular ticket will have to be filed by petition unless the action of to-day is overruled by the courts.

Hurricane on the Atlantic Coast.

New York, September 27.—The West Indian hurricane is making its way steadily in this direction. Early in the day it was off the coast of South Carolina. It is traveling slowly in an easterly direction with a rotary motion, describing circles about twenty miles in diameter. The weather forecaster says: "We shall begin to feel the storm by to-night or to-morrow." The rainfall attending the storm is the heaviest ever known on the coast. Reports received to-day tell of terrific seas all along the coast. The wind is blowing 50 to 70 miles per hour. Steamers coming from the other side may strike the hurricane.

Dr. Tynan Does Not Believe That the Spirits Aided in Finding Him.

SAN FRANCISCO, September 27.—Dr. Tynan, the capitalist who was found by Slater the spiritualist, does not believe that Slater was aided by the spirits in finding him. Slater said that the ghost of Maria Marvin Tynan, the doctor's first wife, told him where to find the missing man. Tynan says that Maria Marvin Tynan was his mother, not his wife, and that he believes that Slater merely saw him on the streets of Boston and recognized him as any other man might have done. Tynan says he does not believe in spiritualism.

A California Silver Man Nominated.

RED BLUFF, September 27.—J. A. Barham, the Republican candidate for Congress for the first district, addressed a large crowd here to-night. He declared himself in favor of the free and unlimited coining of silver, against the Reilly funding bill and against all foreign immigration of skilled and unskilled labor. He was not in favor of the Government ownership of all the railroads as it was impractical.

He spoke for an hour and a half and was received with great enthusiasm. He was particularly anxious that an appropriation be made for dredging the Sacramento river.

Charged With Conspiracy to Murder.

SAN FRANCISCO, September 27.—The present Grand Jury will be asked to investigate the charges of conspiracy to murder against J. J. Leek, a dentist in whose apartments the death of Alice Aldersley occurred on March 6th last, and against Dr. J. Milton Bowers and J. G. Leek. William K. Aldersley, the girl's father, says he has plenty of documentary evidence to show that a conspiracy existed.

Murder in the Second Degree.

SAN FRANCISCO, September 27.—Mrs. Ada Werner, charged with the murder of her husband, was this afternoon found guilty of murder in the second degree, the jury recommending her to the mercy of the court.

Werner was shot while asleep. His wife alleged that he had been unfaithful, cruel and abusive.

Report of the Associated Press.

CHICAGO, September 27.—At a regular quarterly meeting of the Board of Directors of the Associated Press held here to-day the Committee on State of the Association reported as follows:

The Committee appointed by the Board of Directors to present to the Board the actual present condition of the Associated Press report that more than 400 newspapers are now receiving directly by telegraph the news report of the Associated Press. These newspapers are members of the Associated Press and are supplied with news directly by agents of the Associated Press. A large number of papers in addition get news through minor associations procuring news from the organization. Since the re-organization of the Associated Press one year ago 129 daily papers have given up the news service of the United Press and have become members of the Associated Press and in the same period not a single paper having membership privileges in the Associated Press has relinquished that news service to accept service from any other news association not in close and friendly relations with the Associated Press.

The committee reports that the present actual cash receipts each week in payment for various deliveries of its news service are in excess of the actual weekly expenses of the Associated and in excess of the average weekly expense of the organization at the last annual meeting. The Associated Press has for its exclusive use of its news service to-day 15,581 miles of leased wires extending from St. Johns, N. E., on the east, to Portland, San Francisco and San Diego on the west, and from Duluth, on the north to New Orleans, Galveston and San Antonio on the south. The number of independent agent correspondents in the service of the Associated Press is 1550. The number in the eastern division is 528, in the central division 632, in the western division 400, in the southern division 100. The number of telegraph operators in the service is 168, the average number of words transmitted over the day wires is 15,000, the average number over night wires 45,000. The approximate number of words in telegraphic news gathered by the service throughout the country is 28,000 per day.

The committee finds that the Associated Press has maintained and improved at every point the great superiority of its service over all competitors, and not only in domestic, but also in foreign news arrangements, it stands far ahead of any previous record. It shows contracts with the London Times prohibiting the legitimate use of news of that paper by any other American association, and similar exclusive contracts with the chief and important news agencies of Europe—Reuter of London, Havas of France and Wolfe of Berlin, three of the greatest agencies of England, France and Germany, which maintain correspondents in every important city in Europe, Africa, South America, Asia and Australia.

The examination of the books of the Associated Press show that its members have signed and pledged themselves to guarantee a fund of \$50,000 to maintain the high character of its news service and to meet any extraordinary contingencies of expense. Of this vast sum not one single dollar has been demanded from any of the subscribers, and the entire sum remains in the account unused for any purpose and available at any minute for service.

Corbett Laughs at Fitzsimmons' Challenge.

LEWISTON, Me., September 27.—James J. Corbett, who is playing here, read Fitzsimmons' challenge and laughed at the latter's pledge not to attempt to knock him out. Corbett said he would not fight Fitzsimmons until Fitz had defeated someone worth mentioning. Steve O'Donnell, who was present, said he will challenge Fitzsimmons and the latter can subsequently tackle Corbett.

A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and thumb and drew out pieces of bone. I hurt myself so as to break the skin. I was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."

A Collision Between a Steamer and a Schooner in Which Several People Perish.

CLEVELAND, September 26.—A rumor is in circulation in marine circles here that the steamer Ohio and the schooner Ironton had collided and had sunk on Lake Huron. The Ohio is a propeller of 810 net tons. It was owned by Ephraim and others and valued at \$37,000. The Ironton is a barge of 742 tons net, owned by Captain William Mack of this city and valued at \$18,000.

DETROIT, September 26.—The steamer Ohio collided with the schooner Ironton ten miles north of Presque Isle at 12:30 o'clock this morning. The Ohio sank within half an hour.

The crew of sixteen took to the boats and were picked up by the schooner Moonlight, a consort of the schooner Kershaw.

The Ironton sank at 1:30. Two of her crew were picked up by the steamer Hibard. The remainder are not accounted for. The Ironton was also a consort of the Kershaw, but parted her tow-line when the collision occurred.

The first mate of the Ohio was picked up two hours later by the Kershaw.

The Ohio was cut to the water's edge abreast of the boiler-house, the hole being twelve feet square. The damage to the Ironton is not definitely known at this time. The Ohio was loaded with flour and feed from Duluth to Ogdenburg. The Ironton was light, bound from Cleveland to Marquette. The crew refused to give the circumstances of the collision.

San Francisco Municipal Nominations.

SAN FRANCISCO, September 27.—The Democratic Municipal Convention to-night nominated A. C. Freese for Public Administrator, Dr. Alfred E. Blake for Coroner and A. F. Benjamin, A. E. Fritz, Kenneth Williams, A. T. Patton, Wesley Reed, John A. Carroll and E. L. Connor for Justices of the Peace.

At the Non-Partisan Municipal Convention held to-night L. R. Ellert, Republican, was nominated for Mayor by acclamation, and M. C. Haley, Democrat, for County Clerk.

The Committee on Judiciary reported the names of C. T. Conlan and Finley Cook, Democrats, and H. L. Jacobson and Charles A. Low, Republicans, as nominees for Police Judges.

For Justices of the Peace A. T. Patton, Wesley Reed and W. W. McNair, Democrats, and J. E. Barry and G. E. Stokes, Republicans, were nominated.

A Missing Man Probably Murdered.

SAN FRANCISCO, September 27.—Joseph Decker, a Fresno merchant who has been at Bartlett Springs for his health, has been reported missing by a relative who recently received a letter from Decker saying he would be in this city last Saturday. He did not put in an appearance and investigation discloses the fact that he left Bartlett Springs and a telegram from Fresno says he has not arrived there. Last Tuesday the body of a murdered man was found in a refrigerator car which came from Live Oak. His head was full of holes made by a slung shot improvised from several pieces of railroad iron which lay at his side. The relatives of Decker believe that the murdered man was Decker.

The Debs Case.

CHICAGO, September 27.—Assistant District Attorney Rosenthal closed his argument for the Government in the Debs case. S. S. Gregory, for the defense, contended that workmen have a right to strike, based on the Constitution, and any interested party has the right to order a strike. The attorney declared that the United States Court injunctions against Debs were void and no one can be punished for refusing to obey a void injunction.

Mormons in Luck.

WASHINGTON, September 27.—The President has issued a proclamation granting amnesty to all Mormons suffering deprivation of any rights under conviction of polygamy, bigamy, adultery, etc., committed under the color of polygamous marriage. The President says he believes the Mormons are now obeying the law, and that the promise of the Mormon church to no longer sanction such crimes was made in good faith. The proclamation follows up the conditional amnesty granted by President Harrison.

Agitating the New Railroad

SAN FRANCISCO, September 27.—Speaking of the inauguration of the San Joaquin Valley railroad scheme, Traffic Manager Leeds of the Traffic Association said to-day: "One-sixteenth of the Southern Pacific gross returns is derived from its traffic in the San Joaquin Valley. Large landholders of the valley will undoubtedly see that the new road will be their salvation and that they will lend it their assistance. There are no heavy grades or cuts to be made and the cost of construction will be reduced to a minimum."

Another Fire Yesterday.

The fire bell rang out an alarm at 1 o'clock yesterday afternoon and it was found that some feed racks in the cattle corrals just below town were on fire. One of the steamers was soon on the way to the scene, but a nipple on the heating pipe broke, disabling the engine before reaching the fire. The steamer was returned to the engine-house and another pulled out, which soon put out the blaze without serious loss.

These small fires may be a forerunner of a conflagration, and it behooves everyone to be on the guard, particularly when putting up stores for the winter. A little care may save not only the loss of valuable property, but lives.

Deserving Praise.

We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. S. J. Hodgkinson, druggist.

A WOOLEN MILL AT RENO.

What a Humboldt Man Proposes to do. J. F. Abel of Winnemucca says in the Silver State:

I propose to establish a woolen plant at Reno. Reno has the most natural advantages of any town I ever saw for such use. Amstved Fall, in north Ohio, has at this time forty-two factories on a stream that affords less than one fourth the water power of the Truckee. I would suggest to use the money we expend for State and district fairs to take stock in an enterprise of this kind, and give employment in our State to those that could do service of this kind. The money expended for fairs benefits a few for a time, but it is of no benefit to the working classes.

I have had conversations with some of our old fashioned, stand by the old party men, and they give the opinion that we could not make a woolen factory pay on account of the factories East. I know something about what I am speaking and can submit facts and figures to show that we can make an enterprise of that kind pay handsomely, and enable the people of Nevada to reap the benefits which now go to outsiders. Would like to hear from parties on the subject and come to an understanding.

OPENING THE CAMPAIGN.

The Silver Party will set the Ball Rolling to-morrow Night in Virginia City.

The Silver party will open the political campaign against the enemy on next Saturday night, by holding a glorious rally at the Opera House. Not only will the public be treated to all the accessories which impart glamour and enthusiasm to public meetings, but they will be addressed by three speakers of the highest merit, Congressman Francis G. Newlands, Hon. Thomas Wren and Major F. M. Hoffacker who will edify and entertain the Comstock. Trains will be run from the outside and every preparation taken to make the speaking one worth attending. —Virginia Chronicle.

The Jury Disregards.

In the case of the accused strikers the jury was out all night and came into Court at 10 o'clock yesterday morning and stated that it was impossible for them to agree. The jury stood nine for acquittal and three for conviction. The jury was discharged and the case was set for a new trial on October 19th. The men were allowed bail, which was soon furnished. A large delegation of jurymen, witnesses and the accused men and their friends came down on the V. & T. last night.

A Novel Wedding.

There was a grand surprise in the Grand Lodge of I. O. G. T. last night at 10 o'clock. Just before adjournment the Grand Chief Templar requested the members to form a circle which they did without knowing its object. While the circle was being formed Mr. Eli Davis and Miss Nellie A. Cox of Star Valley, Elko county, the Grand Chief and Miss Cora Squires, the Superintendent of the Juvenile Temple, arranged themselves in the center, and about this time Rev. T. P. Bradshaw entered, facing them, and commenced the marriage ceremony before any of the members but himself and the four knew what this part of the unwritten ritual meant. Mr. Davis and Miss Cox were duly married and received the hearty congratulations of the members of the lodge.
